Flite

With its unique design, inspired by the natural shapes, FLITE armrest transforms every office chair into a modern and functional piece of furniture

Con il suo inconfondibile design, ispirato alle forme della natura, il bracciolo FLITE trasforma ogni seduta da ufficio in un elemento di arredo moderno e funzionale.

Organic design

Natural inspirations for harmony-driven comfort

With Organic Design, a design philosophy comes to life—one that looks to nature as an ancient master of form and function. We integrate elements inspired by the natural world into technical and functional solutions that deliver not only high performance, but also an aesthetic that conveys balance, softness, and authenticity.

This vision is not a stylistic exercise, but a conscious choice of advanced ergonomics: every curve, every profile, every detail stems from a careful observation of organic structures, transforming into comfort, durability, and essential beauty.

Nature never designs anything by chance. Neither do we.

Ispirazioni naturali per un comfort che nasce dall'armonia

Con Organic Design prende vita una filosofia progettuale che guarda alla natura come a un'antica maestra di forma e funzione. Integriamo elementi ispirati al mondo naturale in soluzioni tecniche e funzionali, capaci di offrire non solo performance elevate, ma anche un'estetica capace di trasmettere equilibrio, morbidezza e autenticità.

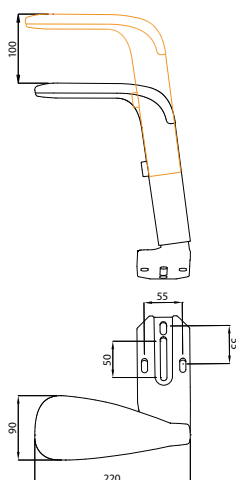

Questa visione non è un esercizio di stile, ma una scelta di ergonomia evoluta. Ogni curva, ogni profilo, ogni dettaglio nasce da un'osservazione attenta delle strutture organiche, per trasformarsi in comfort, resistenza e bellezza essenziale.

La natura non progetta mai nulla per caso. Nemmeno noi.
